## ● About VISCHER

We effectively support our clients in a solution oriented manner in legal, tax and regulatory matters. Our lawyers, tax experts and notaries are organized in the specialist practice teams listed below, each led by an experienced partner. This enables us to individually tailor our services to meet the requirements of the individual project in the most effective manner. Our offices are located in Zurich and Basel, the two largest business centers of Switzerland.

Independence is a key factor for the optimal protection of client interests. We therefore put great value on a very high conflict of interest standard that is no longer obvious in the international legal industry. In order to also remain independent in transborder transactions, we have built up our own global network of foreign law firms enabling us to select our foreign attorneys based exclusively on the requirements of the individual mandates and without having to take into consideration the instructions of a law firm group or a network organization.
